# MADemoiselle

---

For the bride who likes her prim and proper with a side of quirk and vintage, Moiz presents a modified banana twist. To start, he drew a shallow side part, and then teased and smoothed the hair before pulling all of it to one side of the neck. He then began to twist this piece up and over the crown, finishing and securing the twist close to the hairline. Gently pulling from the part and shaping with his fingers, he finished with a final swoop across the forehead and the *Pirouette Hairpin*, tucked side and center.
